### FlexiFreeze

Our needs are not the same, day in day out. The spacious FlexiFreeze compartment adapts to your needs, allowing you to select the correct temperature level for what you are storing.

- **Soft Freeze** -7°C
  - Avoid defrosting frozen food you will eat within a week. You can place food directly from the freezer into the pan.

- **Mild Freeze** -12°C
  - Keep ice-cream and desserts ready to serve.

- **Deep Freeze** -18°C
  - Preserve nutritional value of food for longer.

The intuitive 6th Sense FreshLock will automatically detect temperature variations in order to restore the optimal environment to preserve fresh food for longer in the most natural way.

Within the freezer compartment, 6th Sense FreezeLock automatically sets the perfect parameters to minimize temperature fluctuations in the freezer. Thanks to this feature, freezer burns are reduced preserving quality and appearance of food.

Save Time and Money with Pyrolytic Self Cleaning Ovens

The oven that safely cleans itself so you don't have to. A special programme that safely locks the door and heats up to 500°C to burn off any fat and grease. At just a few cents per cycle, it'll save you money in oven cleaners and gloves.

---

Food and grease simply can’t stick

Our unique iXelium hob has a surface which prevents food residues from sticking, making it quick and easy to clean them away with a simple wipe of a sponge.

Traditional stainless steel hobs become dull and discoloured through exposure to high cooking temperatures. iXelium retains its shine and beauty over time, even at high temperatures, its appearance remains unchanged.
