Made In Italy - Since 1956

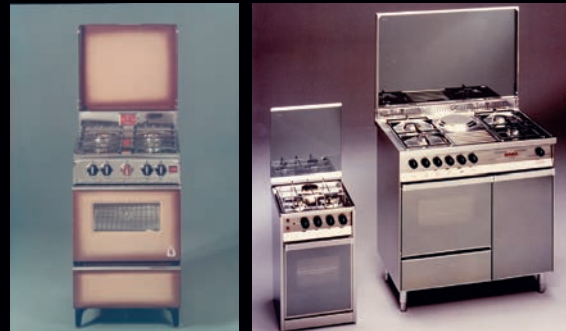

# OUR HISTORY

Back to 1956, Lofra was a small factory, that manufactured pots during the post war period.

Located on the hills around the city of Padua, the company kept on growing more and more by developing the first range of freestanding cookers in the 60s and 70s.

In short time, Lofra became the market leader of freestanding cookers in Italy and also of built-in appliances in the 90s.

By the 2000s, Lofra had already become the pride of the Italian manufacturing industry and the reference point for all the consumers of the kitchen industry all over the world.

From 2010, a new management and several new projects focused on quality improvement and innovative technologies led us to a new stronger international position in the high quality home appliances industry.

# TODAY

Lofra is one of the most prestigious and most recognized Italian brands in the world, thanks to its high quality range cookers and built-in products, created to satisfy even the most demanding and sophisticated customers.

Lofra does not mean only freestanding range cookers: we design and create hobs, ovens, hoods, microwave ovens, coffee machine, refrigerators and much more, always maintaining the high quality standards of the "Made in Italy" brand.

We manufacture our products into a 33.000 square meters large manufacturing factory.

Our company is ISO 9001:2015 certified and our products have different worldwide certifications like CE mark, Q-Mark, G-Mark, AGA certificate, cETLus mark, just to name a few.

The quality of materials, the wide range of technical and aesthetical solutions developed by our advanced research & development department, the total safety and the best performances are the secrets of our success on the international market.

LOFRA

“ We firmly believe that the raw material is the cornerstone for a high quality product, worthy of the true **Made in Italy**. ”

# Made in Italy since 1956

Over 65 years of experience, passion and quality.  
We love what we do. We love people enjoying the art of food.

We love to let ourselves be inspired by the needs of our customers, especially the most demanding ones, and to satisfy every desire as much as possible.

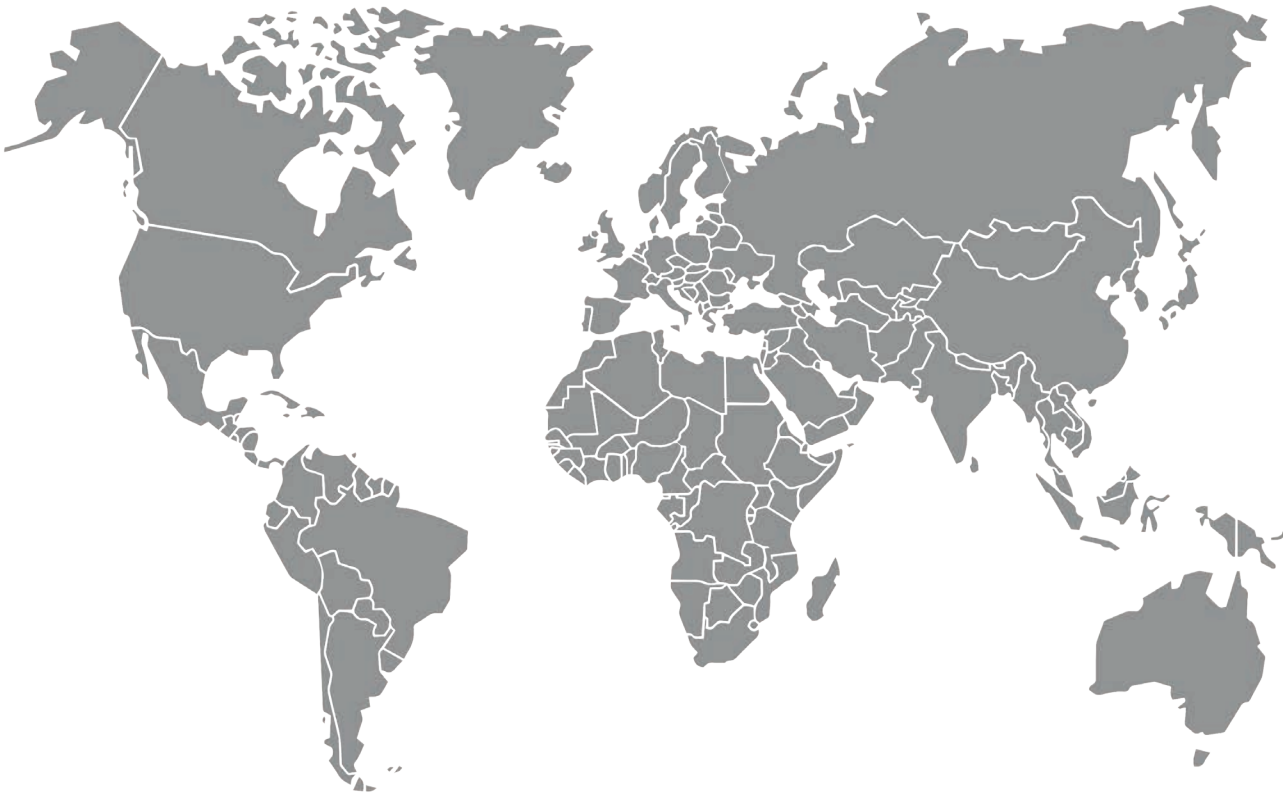

We aspire to perfection, because your kitchen is not just a simple room where you can prepare food, but a real kingdom where every sense is amplified. Smells and tastes come together and give life to dishes that are unique, just like you.

Live your kitchen.  
Live your Lofra.

# ALWAYS THE BEST FOR YOU

WE BELIEVE IN QUALITY

# BE PART OF LOFRA FAMILY

LOFRA is a brand for people that consider the kitchen the main place of their home.

Kitchen is where the family gathers to have a conversation about everyday life while having breakfast, lunch or dinner.

It's where our loved ones get together during the holidays and special events.

Cooking for family and friends is an expression of love and trying new recipes in the kitchen is an adventure.

Enjoy these amazing experiences with us and be part of our family.

Lofra's kitchen is much more than just a kitchen.

# OUR VALUES

## ITALIAN DESIGN

## ITALIAN INDUSTRIAL TRADITION

## ITALIAN LOVE FOR FOOD

## ITALIAN LOVE FOR CONVIVIALITY WITH FAMILY & FRIENDS

SINCE 1956  
IN YOUR  
KITCHEN

# FOR YOUR KITCHEN LIFE...

Make your kitchen the heart of your home and let your creativity run free in complete safety and efficiency, thanks to the innovative technologies provided by our products.

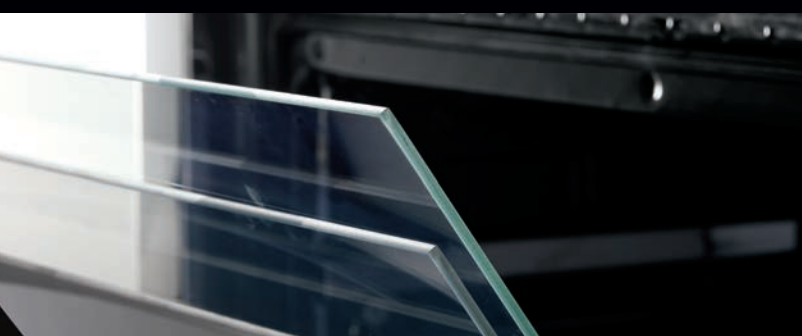

## ONE UNIQUE BRUSHED STAINLESS STEEL COOKTOP

Designed in order to be easy to clean.

## FLAME FAILURE DEVICE

All cookers comply with safety regulations. Each burner is protected by a flame failure device that immediately cuts off gas supply in the event that the flame blows out.

## TEMPERED TRIPLE GLAZED OVEN DOOR

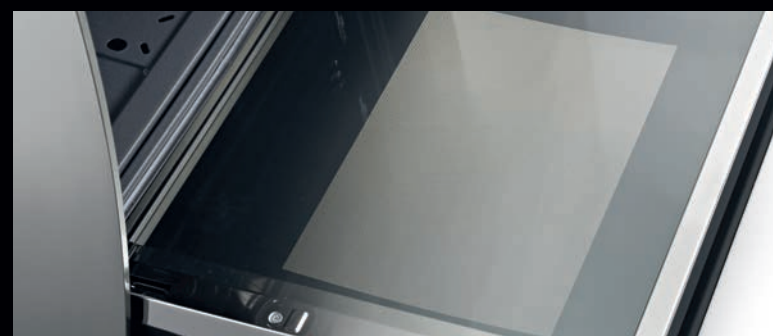

Made up of three panels of glass, creating a semi-sealed chamber and a second chamber with an air current. It dramatically reduces the external surface temperature of the oven ensuring safety and reducing energy consumption.

## BRASS BURNERS

Aimed to provide efficiency and excellent cooking performances.

# ...SIMPLY UNIQUE

## FULL GLASS

All Lofra cookers have a "full glass" oven's inner door with stainless steel profiles.

## EASY TO CLEAN

The internal surface of the oven is smoother and easier to clean, due to our unique enamel coating.

## COOLING FAN

It prevents hot air from damaging the kitchen furniture. Cold air enters the oven door from below and warm air vents out through a slot above the handle.

QUALITY

# COOKING IS A PLEASURE

Lofra cookers are versatile both in terms of size and type of oven. Gas or multifunction, there are various models available that can be integrated into your kitchen.

The choice of your new cooker will improve your habits and life, thanks to the maximum comfort and performance guaranteed by Lofra. With our multifunction oven, you will enjoy the best cooking experience, setting the function and then comfortably waiting for the dish to be ready.

**DEFROSTING**  
Speed up defrosting and safely thaw food with unheated air circulation.

**FAN ASSISTED COOKING**  
This function provides the activation of the fan that allows an homogeneous cooking of food. Suitable for baked pasta, roast meat, baked fish, cookies and pies.

**EVEN COOKING**  
Thanks to the constant circulation of air, the baked goods will be soft and well leavened. Also suitable for cooking roasts, potatoes and vegetables.

**FAN ASSISTED GRILL**  
This feature allows you to cook using the top heating element of the classic grill in combination with the fan. The fan grill cooks by creating a very crispy surface while leaving the inside moist, so it is very useful for cooking meat.

**MAXI - GRILL**  
Typically use to brown and gratinate meats, fish or vegetables. It allows to cook evenly and healthily.

\*  **ROTISSERIE:** operating with the grill and the maxi-grill functions on the suitable models.

**LIGHT OVEN**  
Not just a simple light, but an aid to the rising of your favorite doughs.

**CONVENTIONAL COOKING**  
One of the most widely used methods of baking because heat will be propagated from below and above allowing the food to cook as evenly as possible.

**BOTTOM HEAT**  
Turn on the base heat mode to crisp up pizza or quiche crusts or to slow cook dishes.

**TOP HEAT**  
It allows the slow and delicate cooking of dishes that must remain dry and well cooked inside. Suitable for pizzas, focaccia, bread, cookies, meringues and brioches.

**GRILLING**  
The grill can also be used to cook quickly only one area of food at a time. It's great for grilling meats, fish and vegetables.

# OVENS

The oven is the heart of a kitchen. Everything revolves around the built-in appliance par excellence. The place where all your recipes take shape, taking on new flavours and new looks.

Lofra always thinks big, to make life in the kitchen more comfortable and functional, stimulating your creativity.

From the traditional style to the most refined one, from minimalism to full optional. For those who always seek for the perfect dish for everyone and every purpose.

There are many features that represent our ovens:

## TOUCH CONTROL

With a simple touch, you can activate the chosen program. Easy, fast and intuitive.

## SLIDING GUIDES

## TELESCOPIC SHELVES SUPPORTS

Special guides prevent the overturning of trays, grilles and spits with a load up to 15 kg while also permitting easy access for turning and basting.

## SAFE COOLING

## COOLING FAN

It prevents hot air from damaging close to kitchen furniture. Cold air enters the oven door from below and warm air vents out through a slot above the handle.

## EASY TO CLEAN

## EASY TO CLEAN

The internal surface of the oven is smoother and easier to clean, due to Lofra's unique enamel coating.

## UNTIL 12 FUNCTIONS

Lofra ovens offer up to twelve cooking programs that can meet the requirements of the most creative cooking.

## ANTI-FINGERPRINT STEEL FINISHES

A specific treatment applied directly to the steel minimizes fingerprints on ovens and finishes.

## STAINLESS

# HOBBS

The eye wants its share too, and Lofra cooktops are sure to attract attention. Captivating design. Maximum performance. Guaranteed safety.

Choose between gas, induction or mixed to complete your kitchen and experiment all kinds of recipes.

## HIGH EFFICIENCY BURNERS

Less time required to boil water, so you can save time and money to spend on your passion for cooking around your cooktop. Plus, the burners can be disassembled for easy countertop cleaning.

## CAST IRON GRIDS

## GRID POT STABILITY

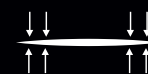

Unchangeable over time and easy to clean. Recommended for frequent use of the hotplate.

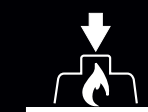

## GAS STOP

## FLAME FAILURE DEVICE

All cookers meet EC regulations relevant to safety and each burner is protected by a flame failure device that immediately cuts off gas supply in the event that the flame blows out.

## TICKNESS DESIGN

## ON/OFF KNOB

## ONE-HAND ELECTRIC IGNITION

A practical device that allows single-handed ignition using the control knobs.

## VERSATILE SIZES

## EASY TO CLEAN

## TOTAL GLASS EASY TO CLEAN

The hobs are ideal for those who love to cook. Fast and efficient, they integrate perfectly into any kitchen.

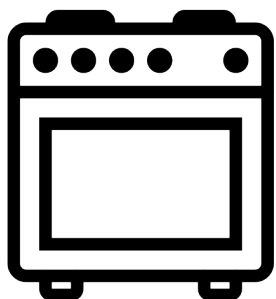

## VERSATILE MATERIALS

# ENJOY THE ITALIAN TASTE

# CURVA COOKERS

## FOLLOW THE CURVED LINE

All the creativity of the steel to give style and originality to your kitchen.

The true trademark of Lofra brand is the Curva line.

A unique patent that is historically connected to our company.

A new way of conceiving the kitchen by making it more modern and comfortable.

The exclusive design of Curva cookers is studied to give a futuristic look to your house, without forgetting the functionality and the high performances.

Stand out from the crowd and go for Curva.

- Elegant door handle: chrome plated steel
- Patented curved oven door
- Digital programmer
- Efficient burners

# CURVA

# CURVA LINE

This line is the synthesis of design and functionality.

The chromed plated steel of the handle and the curved line of the oven door give a touch of elegance to your home.

Thanks to the highly efficient burners including a triple crown and the digital programmer you can cook like an Italian chef!

You also have the chance of having both the fan assisted gas oven and multifunction oven.

## ADD A LITTLE ITALIAN FLAIR TO YOUR COOKING

Explore all the traditional recipes like the Caprese salad. All the simplicity of an Italian dish made of sliced fresh mozzarella, tomatoes, sweet basil, seasoned with salt, olive oil or balsamic vinaigrette.

Curva cookers represent the transformation of design and power over the years.

# DOLCEVITA COOKERS

## A TOUCH OF TRADITION IN YOUR HOME

Dolcevita is a tribute to over 60 years of production of range cookers: a classic and timeless style for your kitchen.

The classical style of Dolcevita line is what you can choose if you'd like your kitchen to be traditional in an elegant way but, at the same time, performing as the most modern and specialized cooking appliances.

The precious handles and knobs come from the fusion of the highest quality metals and the refined clock gives a touch of delicate country style to the cooker.

The result is our masterpiece.

- Available in stainless steel, black matt, ivory white, red burgundy, lavender and pearl white with brass, chrome or bronze finishes
- Available in 60 cm, 70 cm, 90 cm, 120 cm and 150 cm
- Dual fuel, gas or electric versions
- 1, 2 or 3 ovens

*Dolcevita*

# LIVING YOUR DOLCEVITA

The Dolcevita line is completely customizable according to your personality and your preferences. If you are looking for something more classical, you may choose the Dual Fuel version with the gas cooktop and the multifunction oven and mix the elegant ivory white or black matt together with brass or bronze finishes.

Or maybe you may look for something more modern and contemporary and therefore the electric version with the induction hob and the multifunction oven in a stainless steel or lavender colour with chrome finish may precisely be the best fit for your kitchen.

More than 100 Dolcevita configurations in order to meet your ideal range cooker.

## DOLCEVITA COOKERS WITH INDUCTION HOB

- 4 or 5 cooking zones depending on the size of the cooker
- Easy to clean
- Low consumption
- New Cooking Experience
- Different sizes and numbers of ovens

## THERE IS A WORLD BEHIND THE DOLCEVITA STYLE

This is the most customizable line in the Lofra range.

- Expertly painted materials
- Size and quantity of ovens per cookers
- Different hob and oven power supplies
- Simple and elegant finishes

It's not just a cooker.  
Dolcevita is a lifestyle.

Dolcevita is our masterpiece and this line represents our Italian identity.

A mix of design given by the elegant shapes of the handle and the knobs together with an analogue programmer and a blue enamelling of the oven, and of quality expressed by the versatility of the cooktops and the type of ovens, the cooling fan and the efficient burners.

Dolcevita, the style meets the functionality.

# MAXIMA COOKERS

## MAXIMUM POWER

This is the historical line of Lofra.

A line designed for the most demanding consumers.

A style that never goes out of fashion and fits perfectly to any type of home décor and furniture.

Maxima line is mainly represented by a mirror polished stainless steel cooktop, efficient burners and a wide versatility of widths and depths.

Three reasons to choose our Maxima cookers?

Maximum quality, maximum resistance, maximum results!

- Mirror polished stainless steel cooktop
- Shiny handle
- Bi-colour knobs
- Electromechanical timer

# MAXIMA

# INOX: THE KING OF YOUR KITCHEN

Stainless steel is a guarantee of perfect cleaning and extreme resistance.

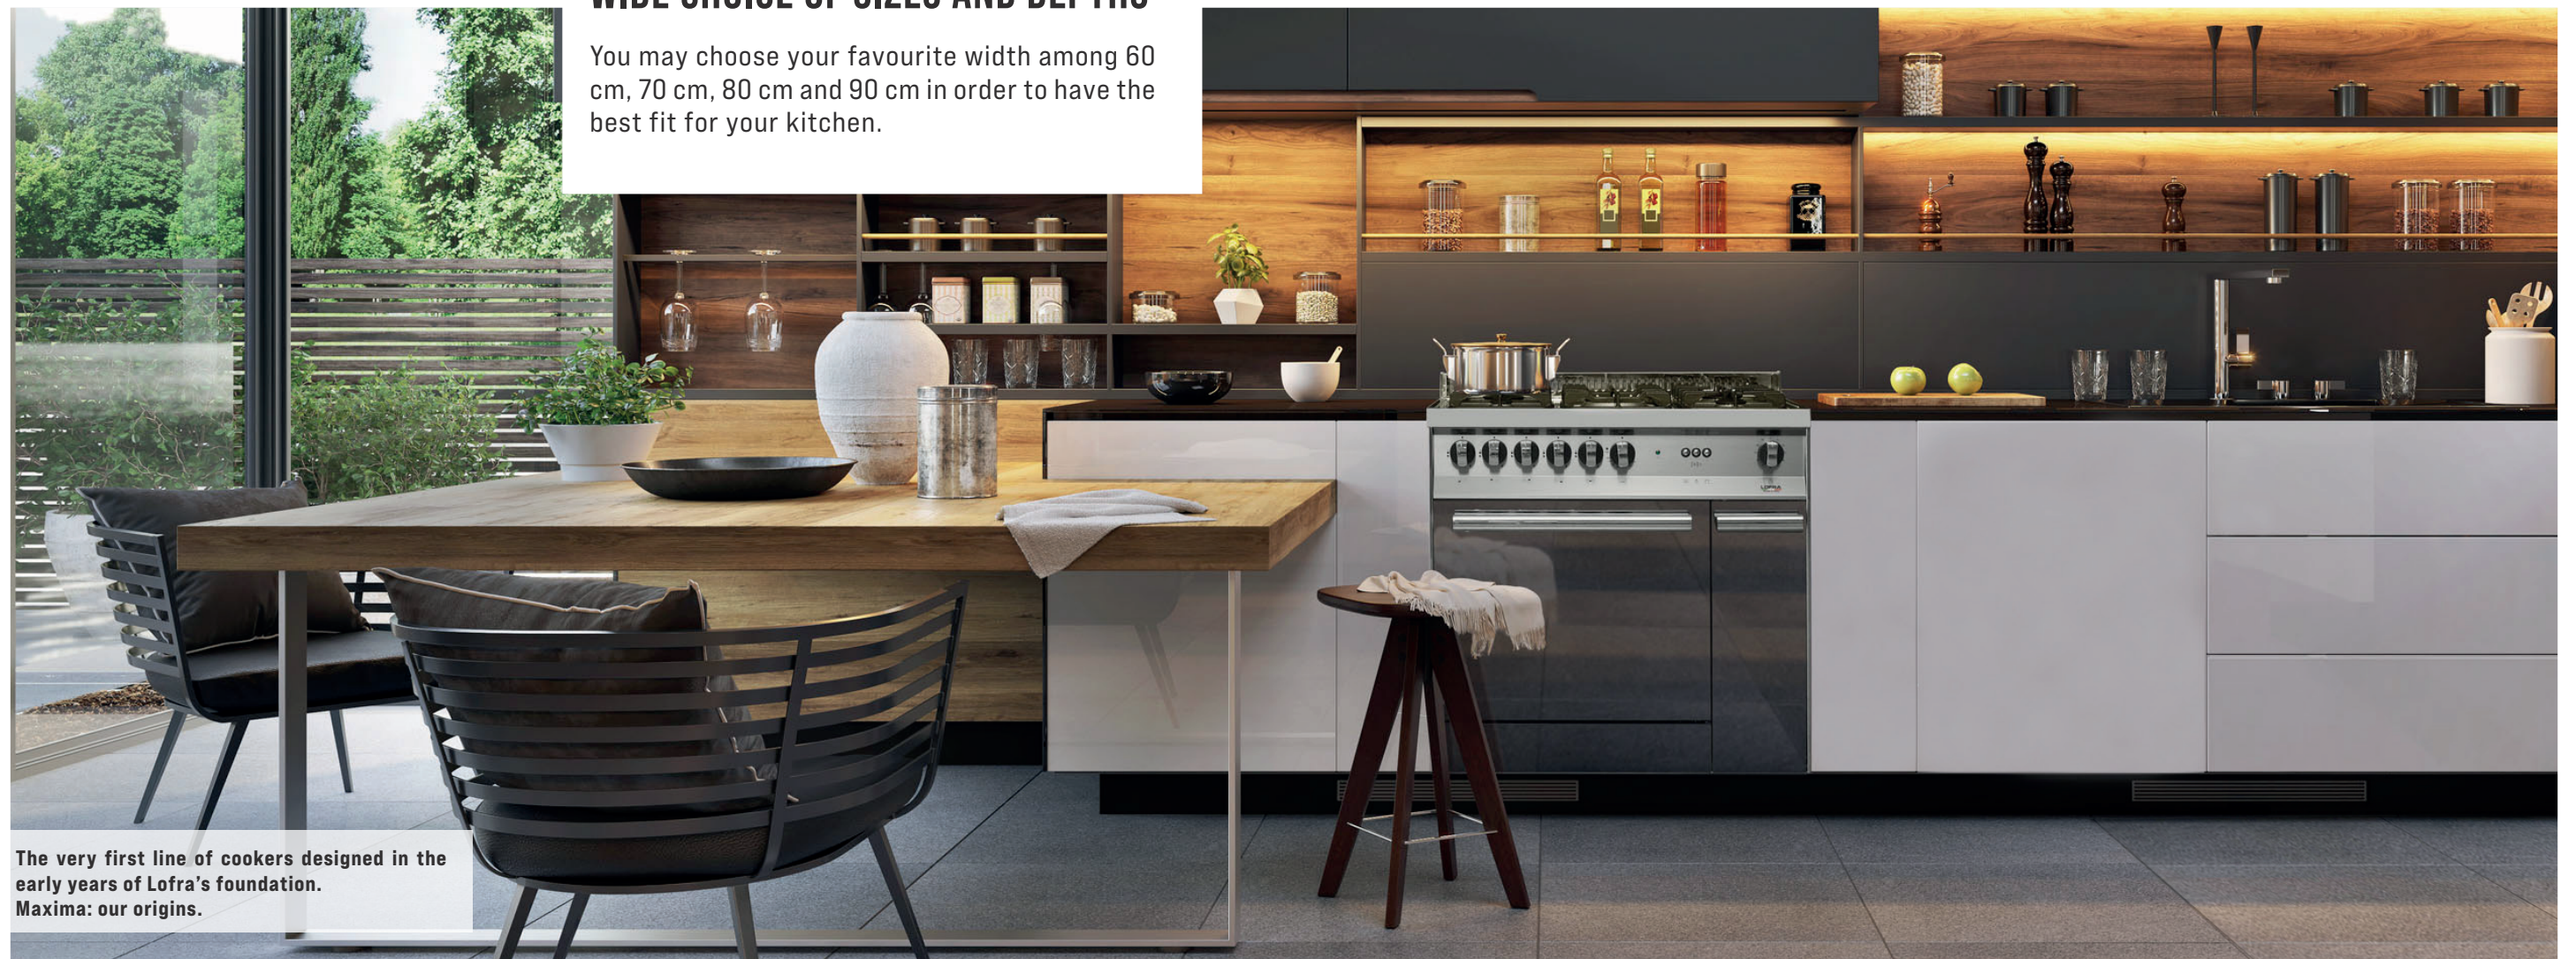

We use the precious AISI 304 stainless steel to make our cookers more durable over time and aesthetically combinable with any type of furniture.

Our polished steel is also very easy to clean, as it undergoes a mechanical and eco-friendly (not chemical) process to remove the roughness. Any dirt does not stick to the cooktop. It slips away and you simply need a bit of detergent for dishes and hot water to clean it.

## WIDE CHOICE OF SIZES AND DEPTHS

You may choose your favourite width among 60 cm, 70 cm, 80 cm and 90 cm in order to have the best fit for your kitchen.

The very first line of cookers designed in the early years of Lofra's foundation. Maxima: our origins.

## MIRROR POLISHED STAINLESS STEEL COOKTOP

Easy to clean, eco-friendly, shiny and elegant.

## HI-TECH KNOBS

Enjoy the detail of our black and silver knobs since we care about the small details.

# PROFESSIONAL COOKERS

## COOK LIKE A CHEF

The Professional line is an elegant and solid range of cookers designed to support the needs of cooking professionals.

If you want to be a real chef at your home, Professional cookers are exactly for you.

A line that includes a wide range of sizes and configurations, studied to satisfy all tastes and all needs.

Do you prefer 1, 2 or 3 ovens plus a warming compartment?

Choose your favourite model: from 60 cm to 120 cm and different combinations of cooking hobs, such as total gas or gas + glass plate mix.

# PROFESSIONAL

# BE A MASTER IN YOUR KITCHEN

There is a whole host of features that mark Lofra's quality and that make this range of cookers absolutely essential:

## BRUSHED STAINLESS STEEL

It's aesthetically very elegant, with its fine lines that converge in the direction of brushing and it's often chosen for decorative purposes.

But it's also an exceptional performer when it comes to disguising blemishes, thanks to its warm tone, very helpful for hiding fingerprints.

## CAST IRON PAN SUPPORT

Light and reliable. Quality over time.

## MULTIFUNCTION ELECTRIC OR CONVECTION GAS OVEN

Lofra's **multifunction electric ovens** offer up to eleven cooking programs that can meet the requirements of the most creative cooking.

The uniformity of temperature of the **convection gas** ovens are provided by a fan. Excellent for cooking where a uniform distribution of heat and constant temperature is necessary.

## TRIPLE RING BURNER

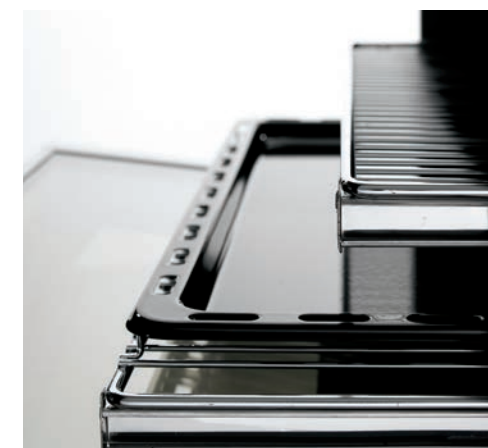

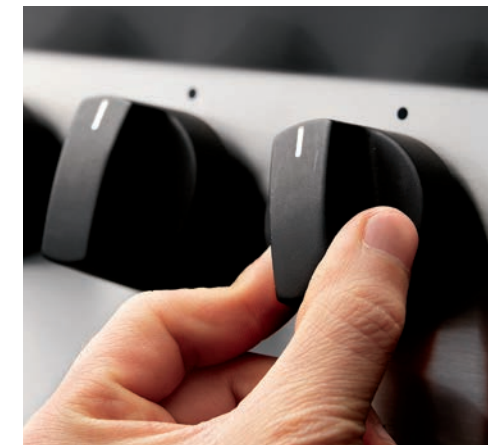

Excellent for cooking when there's the need for a uniform distribution of heat and a constant temperature.

## ONE- HAND DIGITAL PROGRAMMER

It is possible to preset when the oven switches on thanks to an easy to use digital programmer.

## TELESCOPIC OVEN SHELVES SUPPORT

Special guides prevent the overturning of trays, grilles and spits with a load up to 15 kg while also permitting easy access for turning and basting.

A line designed for the most demanding cooks. The best for those who love perfection. Special 100.

# RAINBOW COOKERS

## COLOR YOUR KITCHEN LIFE

We colour your kitchen and make room for your creativity.

This line of cookers features a special selection of colours, to give a touch of joy and energy to your kitchen and to brighten your everyday life at home.

Choose between our flamboyant red burgundy, the pure pearl white, the always fascinating black matt, the original ivory white or the elegant polished stainless steel.

Free your imagination and let yourself be inspired by Lofra's Rainbow.

- ❑ Cooling fan
- ❑ Shiny handle and knobs
- ❑ One-hand digital programmer
- ❑ Telescopic oven shelves support

*Rainbow*

# FIND YOUR STYLE

A modern and elegant line that tells our history, projecting us into the future.

The Rainbow range features a design with simple but fashionable lines that comes from the union between Italian tradition and the desire for modernity, suitable for any style of kitchen, in terms of size, colour and type of oven.

**Choose the color, the width and the oven.**  
**Personalize** your kitchen environment.  
**Free your creativity.** If there's color, there's more taste.

Let the colors explode in your home.  
Choose Rainbow for your kitchen.  
Rainbow 90 Black.

# VENEZIA COOKERS

## INNOVATION AND COMPACTNESS

Our Venezia line is focused on innovation, with its efficient brass burners, the latest technology of the induction cooktops and the big electronic digital programmer.

Furthermore the possibility of having 2 electric ovens equipped with rotisserie, blue enamel and cooling fan allows you to have a stylish but also performing product.

The perfect synthesis of innovation, functionality and space optimisation for your kitchen. In a 90 cm cooker.

- Brass burners or induction cooktop
- Big electronic digital programmer
- Sturdy and stylish knobs
- Ovens with blue enamel
- Different colours of the oven doors

# Venezia

# INCOMPARABLE EFFICIENCY AND LUXURY APPEAL

Venice is a unique city in the world, and our cooker Venezia takes its own name to amaze us with its originality and charme.

It is available in a range of classic and elegant colours, made even more refined by the special combination with stainless steel.

You can choose between our Red, Pearl White, Ivory White, Stainless Steel and Matt Black.

Dreaming of Venice will be much easier now.

Our **brass burners** allow you to save gas consumptions thanks to the inclined flames.

Our **turned stainless steel knobs** give that touch of Italian elegance and quality that your kitchen requires.

# ITALIA COOKERS

## TRY THE ITALIAN TASTE

You can feel the sturdiness of our Italia cookers just looking at them: thick cast iron grids, powerful brass burners, robust knobs and handles, 2 fans.

These are just some of the features that mark these unique line.

If you add the possibility of customising these cookers with different colours and to cook a real Italian Pizza with a 130 liters oven getting to 300°C, the name Italia is easily explained: high quality of the components, attention to design, focus on food specialties.

This line totally expresses the Italian spirit and its strength at the maximum power.

- Thick Cast Iron Grids
- Brass Burners
- Robust Knobs and Handle
- 2 fans
- Oven: up to 300° C

# Italia

# BOOK A TRIP TO THE “BEL PAESE”

## CAST IRON GRID AND BRASS BURNERS

With its completely redesigned pan support, the cooker is suitable for every type of pots, for cooking in complete freedom, also thanks to its powerful brass burners.

## KNOBS

A new model of knobs has also been introduced in order to give a greater sense of safety and reliability to the cooker, even at the touch. Actually this design allows you to have the total control of your cooker.

## OVEN

Although in contained dimensions, this new line of Lofra cookers also offers the possibility of using two fans inside the oven at the same time, to obtain uniformly cooked dishes. The ovens in this range can accommodate up to 130 liters and get to 300°C.

## YOU WILL LOVE YOUR NEW COOKER

If you want a taste of the “Bel Paese” atmosphere in your kitchen, the new Italia range is perfect for you.

Every single piece of this cooker is designed to bring true Italian cuisine at your home.

You can cook the real Neapolitan pizza, or the perfect Spaghetti, thanks to this product and its powerful structure, its strength and sturdiness, resistant over time.

Italia cooker introduces also the fast preheat feature. Thanks to this feature, you can heat your oven up to 100°C in only 10 min.

Save time in your everyday life.

## ENJOY THE CREATION OF PIZZA AT HOME

As an option, you can also use the pizza stone, to give to the dough the right crunchiness anziché, and the wooden shovel, to be a perfect pizza chef.

Savor the Italian style with Lofra’s new Italia range.

# DOLCEVITA HOBS

## COOK WITH GREAT STYLE

Innovation, elegance and safety are the key words of our Dolcevita built-in appliances range. Complete your retro style kitchen with a Dolcevita hob and enjoy its perfect line and style.

Choose your favourite colour and trim between different configurations: stainless steel, ivory white, oatmeal, black matt together with brass, chrome or bronze trim. The classical Italian style lovers will surely adore the Dolcevita built-in range, to make their kitchen original, coloured and full of personality.

Dolcevita hobs don't offer just a gorgeous look, but also exceptional cooking performances.

Dolcevita built-in hobs reduce the need of extra spaces and come in different widths and configurations.

Bring a sophisticated look and style to your kitchen!

- ❑ Solid cast iron pan support
- ❑ Flame failure safety device
- ❑ Automatic under knob ignition
- ❑ Precision burners control for excellent cooking performance
- ❑ Available with matching hoods

# PROFESSIONAL STAINLESS STEEL HOBS

## LIGHT LIKE STAINLESS STEEL

Our stainless steel hobs are designed to guarantee maximum performance and maximum energy saving. The stainless steel hobs are made to make every kitchen unique thanks to their various design styles, in order to satisfy any stylistic need.

The cast iron grills are made in such a way that the pans can be easily moved over the entire surface of the hob without affecting the aesthetics.

The extreme efficiency and the refined design are essential elements for the kitchen, the convivial space par excellence of all the houses.

Our Professional stainless steel hobs are sturdy and long lasting, made of stainless steel to guarantee functionality and design.

- Versatility of sizes: 60 cm, 75 cm and 90 cm
- Versatility of colours: stainless steel, black matt and ivory white
- Versatility of configurations: gas burners, induction cooktop and also a ceramic spoon rest

# PROFESSIONAL GLASS HOBS

## REFLECT YOUR PASSION

Our glass hobs are created with a unique and incomparable design and with a special focus on functionality.

Easy to clean, the flat glass surface allows you to speed up your cleaning operations and to reduce your consumption of detergents.

A sturdy line especially designed for people looking for a powerful and robust built-in hob, with cast-iron grids and efficient gas burners, while also demanding elegance and style, given by the special touch of glass.

Bring a bit of Italy into your kitchen.

- Versatility of sizes: 30cm, 60 cm, 75 cm, 90 cm and 112 cm
- Versatility of colours: black or white
- Versatility of configurations: triple ring burner on the left, on the right or in the centre of the top

# PROFESSIONAL INDUCTION HOBS

## COOK DIFFERENTLY

Discover our fantastic induction range: a faster, cleaner and safer way to cook.

Induction cooking means safety, time reduction, constant temperature control and versatility.

If you're used to cooking with gas, then you should absolutely try with induction: you might be surprised by how quickly the hob heats your pans, thus saving heat and energy.

Moreover, the hob itself stays almost completely cold, as induction puts the heat directly into the base of the pan.

There's less risk of burning yourself on the hob and you'll also have a whole series of advantages, such as:

- Easy to clean
- High performance
- No risk of gas leaks
- Even cooking thanks to homogeneous heat distribution

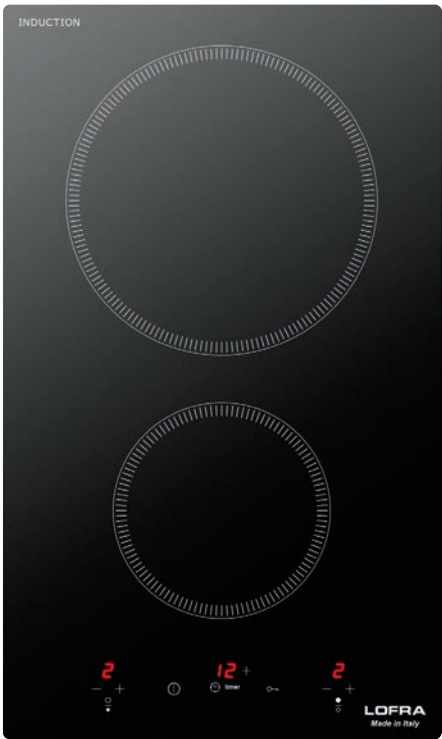

Choose a Lofra induction hob if you enjoy experimenting in the cooking and if you desire a stylish, modern and technologically advanced kitchen.

# VITROCERAMIC HOBS

## MAXIMUM PLEASURE AND MINIMUM EFFORT

Available in 30 cm, 60 cm and 90 cm widths, Lofra Vitroceramic hobs make your life easier.

They are the ideal solution for those who want to cook with professional appliances, designed to meet different cooking needs and to be adapted to any kitchen design solution.

The newly developed heating elements allow to get to maximum power just in a few seconds. Furthermore the big insulation thickness of glass fibre prevents heat loss, limiting the heat dispersion to the screen-printed areas.

Our glass ceramic hobs are practical and easy to clean, combining great aesthetic effect and sophisticated design to high-end technology and maximum practicality.

Browse our range to find the hob that's right for you.

- 9 power levels + booster
- Residual heat indicator
- Child lock safety
- Independent timer for each cooking zone

MICROWAVE OVENS

# RANGE TOPS

## A NEW WAY TO BE DIFFERENT

There is something new in the Lofra house: something sleek and versatile.

A rangetop is simply a range cooker without the oven and it's installed by sliding it into the countertop. Ideal for the customer who wants flexibility and personality when outfitting their kitchen.

Sturdy and built for the highest demand, maximum flexibility and professional result, our Range tops are perfect if you'd like to give a modern style look to your kitchen.

The proven performance is ensured by their highly professional technical specifications: large dimensions for maximum power. They offer more cooking space and can fit large pans, they save cooking time, and the knobs are positioned on the front in order to handle a smoother and easier cooking even with many pots on the top.

If you like barbecue but you also want to cook pasta or have an excellent and healthy cooking on the vitroceramic plate, our range tops are the ideal solution. They can provide everything that you may require in a small space.

- Vintage and modern style
- Brass burners
- BBQ plate with a set of ceramic stones
- Vitroceramic plate
- Thick cast iron grids
- Sturdy knobs

# HOODS

## FEEL THE AIR POWER

Cook without worries. Your kitchen will smell good thanks to our extractor hoods.

Lofra hoods extract the fumes and vapours that are generated during the cooking and pass them through metal grease filters to purify the air.

The powerful tangential motor, the activated carbon filters, the material used such as stainless steel and glass and the range of colours will allow you to have a functional and elegant hood that will match your other appliances.

- Brushed stainless steel finishing
- Tangential motor: up to 1.000 m<sup>3</sup>/h
- Up to 4 extraction speeds
- Remote control
- Removable and washable (dishwasher safe) metal grease filters

DOLCEVITA

60 & 90 cm

# SPLASHBACKS

## EASY TO CLEAN

Our kitchen splashbacks are aimed to help you protecting your walls from cooking splatter and stains. Easy to install, they will keep your kitchen clean and hygienic.

They are also stylish matching the same handles of your other Lofra appliances and durable thanks to the resistant stainless steel.

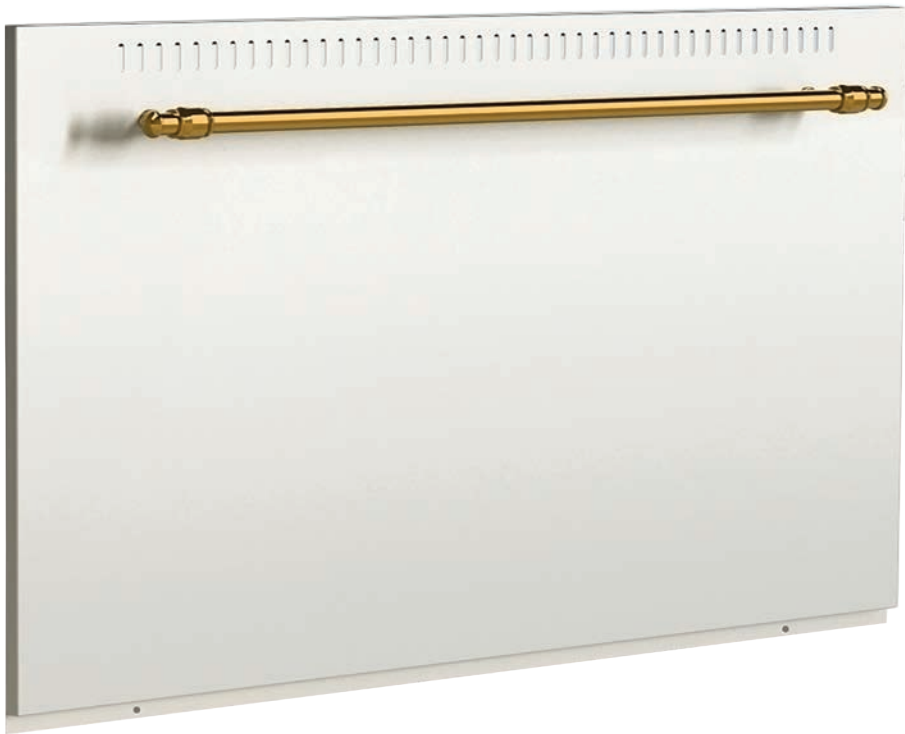

Our splashbacks are also easy to clean by just wiping down with warm soapy water.

Protect your walls with our splashbacks.

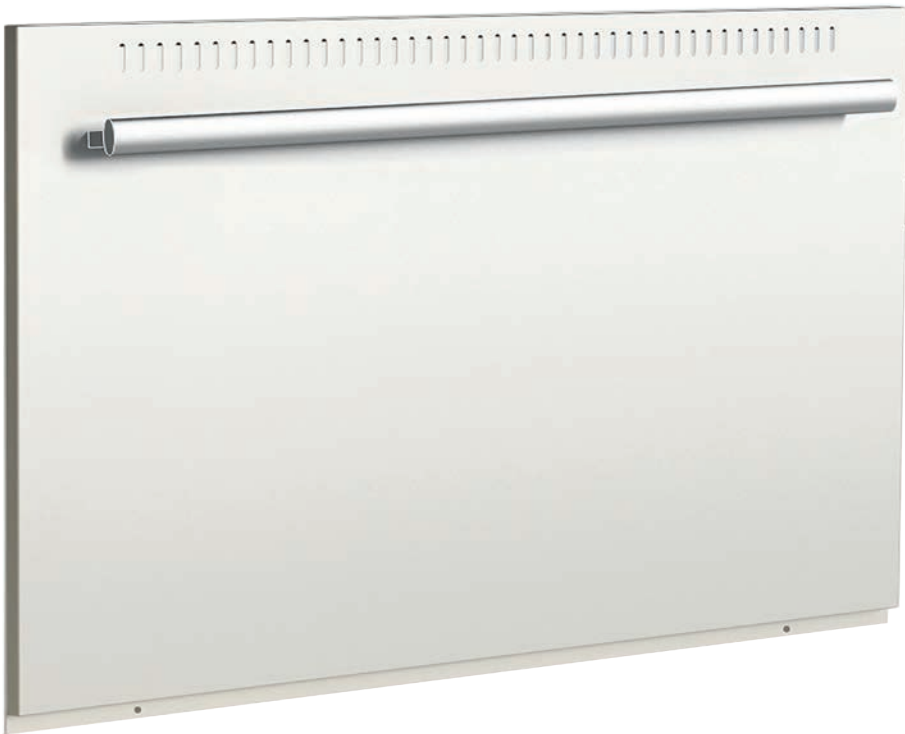

- Stainless Steel
- Vintage or contemporary style
- Easy to install
- Easy to clean

# COFFEE MACHINES

## WAKE UP WITH A GREAT SCENT OF COFFEE

If you are a fanatic of coffee and cappuccino, you cannot absolutely miss our coffee machine. A fully automatic device that will allow you to instantly prepare a perfect coffee.

You can savor the intimate ritual of the first coffee of the day, or stop for a moment from all your daily commitments to enjoy an espresso or a latte.

The coffee break is a ritual that you can enjoy alone or a special moment of relax to share with a friend.

You will prepare coffees as a real bartender and start your day with a Lofra coffee smile.

- A 2,5 lt. water tank together with the coffee beans container
- Possibility of selecting 5 variations from the lightest to the strongest blend
- Up to 8 functions
- Touch control
- Coffee bean grinder

ITEM CODE: 29320221  
EAN CODE: 8022389018669

Fully automatic machine for 1 or 2 cups of coffee, espresso, cappuccino, latte macchiato, café au lait or hot water

Dimensions (cm - WxDxH): 60x40x45  
Color: Black Matt

# REFRIGERATORS

## FRESH AND STYLISH

Our refrigerators are available in a wide range of colours and models, among which you can choose the one that best suits your kitchen.

Lofra refrigerators represent a stylish and performing solution for your food and beverages.

The multiple evaporators allow independent management of the temperature of the refrigerator and freezer compartments in order to avoid any exchange of odors between them.

The technology of our refrigerators is aimed to also minimise the temperature fluctuation inside the refrigerator compartments, so the food will retain its original texture and flavour.

And if you leave the door open, don't worry. Your food is safe, thanks to the door opening acoustic signal that will warn you.

Refresh your food with style.

- Up to 617 litres of capacity
- Dispenser for water and ice
- Side-by-side or 4 doors models
- Multiple refrigerating system with multiple evaporators
- Up to 12 hours of autonomy without electricity

# WINE COOLERS

## WINE CULTURE

Beautify your kitchen with our elegant, stylish and performing wine coolers!

Wine is not just a drink or a consumer good. It's culture, history and, in its highest forms, even art.

Lofra wine coolers are designed to satisfy the most demanding wine lovers and to create a perfect balance of temperature and humidity for the aging of wine.

You may choose between the Dolcevita version to match your other classical appliances or the Professional version for a more contemporary style.

Give your wine the prestige it deserves with our wine coolers.

- Wooden shelves
- Storage until 46 bottles
- Possibility of having a double temperature

# DISHWASHERS

## ENJOY YOUR COOKING AND THEN RELAX

Our built-in dishwasher is created to help you focusing on cooking and enjoying your meals and then to take your time.

Do not worry about cleaning your dishes. Your Lofra dishwasher will take care of it.

The washing 10 programs, the presence of three levels including a cutlery basket drawer, the possibility of putting up to 13 place settings and the full aquastop system are just few elements of this highly functional and also efficient appliance.

You also have the opportunity to add the Dolcevit door to your dishwasher to bring elegance to your kitchen and have a unique rustique style on your main appliances.

Cook, eat and then relax. That's it.

- 10 washing programs
- 3 levels
- 13 place settings
- Full water safety system
- Doors available in black matt, stainless steel, ivory white, red burgundy and pearl white
